D. V. Highlights

By Mrs. Edith Deby

When the Nick Urchyshyns visited the Andrew Johnsons in Vernon recently they found Andrew suffering from a burn on the palm of his hand. He had picked up a carpenter's square which had been lying in the sun. Almost looks as though one can get too much of such a good thing as Okanagan sunshine. Mrs. Urchyshyn vows this is true. She didn't see the square but she saw the burn.

Our sympathy goes to the relatives of Harvey Brown whose tragic death by drowning came as a shock to his family and friends.

A recent guest in the Lindsay Johnstone home was Mr. Joseph Grump, of Cheltenham, England. Mr. Crump is a relative of Mrs. Johnstone.

Mr. and Mrs. Lawrence Morin and small son Timmy of White Rock, B.C. were here for a few days visit with old friends.

The annual picnic of the Greaves family was held in Moon Lake last Sunday. Eighty one members of this pioneer Alberta family were present. From Drayton Valley this includes the Tuckers, Bills, Jevnes, Urchyshyns, Hutzels and Wietings. There was a golf tournament won by Nick Urchyshyn for the gentlemen and Beryl Greaves for the ladies. A horseshoe pitching contest won by the team of Ted Tucker and Dan Bills, and a baseball game.

Mr. John MacKenzie Sr. is recovering well following his operation and is able to be about once more.

Miss Bessie Hawkes, of Victoria, B.C. has been the guest of Miss M.C. MacKenzie for a week. Miss Hawkes and Miss MacKenzie have been friends since their childhood days on the farm and we can well imagine they had a very fine time with their "Do you remembers?".

A note from Mrs. Harry Zolmer tells us that they are already settled into their home in Chilliwack. Chilliwack's gain is Drayton Valley's loss and no doubt this energetic couple have already joined their favorite clubs and organizations.

Mr. and Mrs. Gilbert Mitchell and family have been visiting Mrs. Mitchell's parents, the Lewis Williams.

Mrs. Lindsay Johnstone and Mrs. Isobelle Hoyland are vacationing at the former's cabin on the Shuswap. They plan a restful holiday with easel and fishing rod.

Legislature Protects Wildlife

Recent legislation restricting the use of snow vehicles for hunting big game animals will probably be welcomed by true sportsmen. The use of motorized toboggans gave an advantage to the road-cruising types who are now able to reach the areas formerly reserved to the few who were prepared to go to a lot of trouble to get an animal.

An even larger segment of the population will be happy to know that the government has taken a good look at the use of snow vehicles and in doing so has denied another group the (sport?) of running down and crushing out the life of wild animals. Even the unfortunate coyote gets a break from the new legislation that has been broadened to read, "no person shall chase, molest, injure or kill ANY wildlife with a snow vehicle."

Turtles Still Hinder Traffic

Still a problem on Alberta highways durint holiday periods are the bottle-necks created by vehicles moving below the speed limit and tempting the less cautious behind to attempt a risky pass.

The situation appears to have improved considerably in recent years but there is still room for move improvement. Requests by the Alberta Safety Council for slow moving traffic to pull over whenever possible and allow others to pass has accomplished a degree of co-operation that was lacking a few years ago.

However, it seems that legislation will be necessary to make some of the turtles get over on the wide shoulders and allow free movement of traffic.

Summary of Regular Meeting Regional Recreation Council

Minutes of the regular meeting of the Parkland Regional Recreation Council, held in Stony Plain July 20.

Members present were chairman, Mr. R. Lent; Councillors Vowk, Mann, Gylander and Fuhr and Mr. Alphonse Thomas, Recreation Director of Enoch Reserve at Winterburn.

Staff present were superintendent Mr. C. Armstrong; Mrs. Bette Pack. Also present was the District Youth Representative Mr. Darwin Park.

SUPERINTENDENT'S REPORT

Mr. Armstrong presented his monthly report to Council, which dealt with: Minister's Conference -- preparation of a tentative program for our own workshops prior to the conference is under way, along with an outline of what we should be suggesting to the Provincial Government. School Facility Development plan -- the County School Committee want Mr. Armstrong to make recommendations to the school play areas and he will be working with Mr. Bud Hillyer, County Maintenance Foreman on this project. Athletic Field, Gainford -- He is overseeing an athletic field in Gainford and it is now in the clearing and levelling stage. Baseball Program -- there are 97 teams operating in the County and everthing is going quite well except for a few problems with officiation and coaching. Hope to instill the value of good leadership into the coaches and umpires. Future Programs -- When Mr. Moore returns it is hoped that there will be an expansion of services to the people and an introduction of new participation programs, new concepts to recreation, leadership development techniques, and facility development through governing authorities.

PROGRAM DIRECTORS REPORT

Mr. Armstrong read Mrs. Holgersen's report, as she is on holidays from July 20th to August 10th. Mrs. Holgersen reported that the travelling playground is doing extremely well in the communities visited to date and that the local boards are providing good co-operation on publicity, supper and involvement in the program itself.

Plans for the craft trailer, which will visit four areas in the region, have now been finalized. Rocky Rapids, Wabamun, Stony Plain and Spruce Grove have been chosen the sites for the trailer because of the concentration of population and because they are spaced geographically so everyone in the County will have a chance to visit the trailer.

Plans are under way for the instructor's leadership courses for month of September and Mrs. Holgersen hopes to meet with every community during the first part of September to go over the plans for the fall programs, as well as determine their need in this field.

Mrs. Holgersen taught creative needlecraft at the Agricultural and Vocational College in Fairview on July 7, 8, and 9th for the Alberta Women's Week workshop, which was sponsored by the Home Economics Branch of the Provincial Government.

SWIM PROGRAM DIRECTOR'S REPORT

Mr. Mort Grande's report was read by Mr. Armstrong. Mr. Grande reported that approximately 450 children are being bused to swim programs for the month of July and it is estimated that approximately 200 children will be taking the August session lessons.

Classes are going well at the Entwistle Pool. The mechanical operation has been good and early report from the District Health Office on the water samples has very few complaints on the program and most of them being because of the early hour at O'Leary Pool in Edmonton.

Mr. Grande feels it is unfortunate that there are not more facilities in the County so we can accommodate more children

Regular Meeting Rec. Council

(Cont. from Page 7)

and at better times. There was much discussion with respect to the swim program problems and Mr. Mann moved that the Swim Program Director's Report be accepted as presented. Carried.

FINANCIAL REPORT

A financial report to July 2, 1970, was presented and discussed. Mr. Vowk pointed out that the expenditure is over the budget allotment for Athletic Leagues, Leadership Development and Miscellaneous, however, Mr. Armstrong explained that the report did not include the grant from the Department of Youth for Leadership Development and that there will be hockey registration fees coming in the fall, which will balance the budget. Mr. Ivan Vowk moved the adoption of the financial report. Carried.

EVANSBURG APPLICATION

Mr. Armstrong reported that he wrote a letter to the Village of Evansburg in connection with their request to enter into the Regional Recreation Agreement, asking them to pick two dates for a meeting between them and Messrs. Lent, Gylander and Armstrong. However, to date he has not heard from them. Progress will be reported at a later meeting.

BUSINESS ARISING FROM THE MINUTES

The Recreation Council wrote to the Department of Youth inquiring as to why rural areas were not given the same monetary consideration as urban centres when assistance for Youth Employment programs was distributed, but have not received a reply. Mr. Armstrong pointed out that it is one of the things we should be looking into at our Parkland Regional Recreation Workshop, prior to the Minister's Conference. The Councillors' will be informed in a week about the tentative agenda for the Minister's Workshop.

GENERAL DISCUSSION

Mr. Alphonse Thomas, Recreation Director of the Enoch Reserve at Winterburn, reported on the progress with recreation at the Enoch Reserve. He stated that the Indians appreciate the things Mr. Armstrong is doing, as their children like to play ball, etc. and participate in inter-community games so they can mix with the white children. He felt that a leadership course would be good for their children because there is a great shortage of coaches and leaders among their people. Their children are being bused into the Y.M.C.A. for swimming lessons.

Mr. Thomas reported that Tomahawk Park, at Winterburn is being worked on and the Reserve hope to have it put into use by the end of August. They have a large pool in this park, which may be an answer to some of our pool problems.

Mr. Armstrong invited the Councillors to drive to Drumheller with Darwin Park and himself for Sponsor's Day at the Leadership Course on Wednesday July 22nd.

The next regular meeting will take place on Monday, August 17, at the Parkland Regional Recreation Centre.

Parkland Notebook

In the previous weeks we have talked about Primitive Pottery, Basketry and Weaving. All the crafts that you will be able to try out on the Parkland Regional Department's Craft Trailer which will travel throughout the region the last two weeks in August.

Today I will talk a little about the fourth craft you will be doing namely, painting. As you realize, Basketry, Pottery and Weaving all played an important part of the history and culture. What about painting? Think of the cave paintings that were made by unnamed people 30,000 years ago. Through these painting we are able to visulalize how life was those early days on earth.

Through history man has been influenced by and made an impact on politics, religion and many other facets of changing societies. He has expressed his personal feelings and reactions on canvas, wood, wet plaster and paper, with oils, tempers, water colors and chalk. They have ranged from detailed miniatures to huge frescoes on the monuments of architecture. Indeed the story of mankind is reflected in an astonishing accumulation of art in all forms.

You may have long appreciated art and painting, but never had the chance - or the courage to try to put your ideas and feelings on paper.

We will have lots of paper, paints, and pencils for you at the Trailer. An experienced and qualified instructor who can guide and help you will be there to show you how easy it can be to capture a feeling or picture on a piece of paper.

Sketching, painting and murals will all be offered, depending on your interest. All ages from preschool children to senior citizens will enjoy the painting session - it can truly be an enjoyable, satisfying experience for all.

I hope you are interested. Check the area which is closest to you and plan to come and spend a few hours, or a couple of days with the Parkland Regional Recreation Department's Summer Craft Trailer.

H.M. Grande, Swim Program Director for the Parkland Regional Recreation Commission, reports that the July session of the "Red Cross" learn to swim classes are now completed. All children were tested at the completion of the 15-day course and those passing received their awards and badges.

It should be pointed out that the large number of children not receiving awards is due to tougher examinations by Red Cross examiners as of July 1st, 1970. This will in time make better swimmers, but will take longer.

The August classes start Monday, August 3rd, and we hope it will be as much enjoyed by the children as was the July session. Many favorable comments have been received by this office, both by 'phone and letter, and we wish to thank you for your kind remarks. At the end of the August session we will publish a full report on the swimming in general.

ST. ALBERT WINS FASTBALL TOURNEY

St. Albert Drive-In defeated the Spruce Grove Panthers 8-4 to win Sunday's D.V. fastball tournament.

Only 7 teams participated as a result of cancellations of all the other teams invited.

The results of the first round were: Stony Plain Playboys 4, D.V. Amoco 1, Spruce Grove Panthers 6, Whitecourt 4, D.V. Rebels 3, Hazeldean Community Centre 2, and St. Albert Drive-In got a by.

All the games in the first round were close contests, especially the Rebel-Hazeldean game where as the city team consisted of junior boys and they gave the local team all they could handle before allowing 2 unearned runs due to errors in the 6th inning. The game was tied 1-1 prior to this and they did score another run in the seventh inning but then ran out of gas.

In the semi finals Spruce Grove defeated Stony Plain 6-4 and St. Albert thumped the Rebels 10-5. The D.V.-St. Albert game was tied 5-5 at the end of 4 innings and then St. Albert exploded for 5 runs in the fifth. Both teams were held scoreless after that.

In the final St. Albert jumped on the Panthers for 6 big runs in the first inning and then held on to 8-4 to win. Numerous hits and errors accounted for those 6 runs and then the game settled down to become a close contest.

First prize money of $80 and $40 for second prize was won by these two teams.

The tournament was a definite success due to co-operation from the weather, the plate umpires Emil Labranche, Joe Makarowski, who did a great job and handled all the games at the plate and base umpires Cec Koethlen, Les and Bill Hutchinson, Jack Marfleet and Ron Hemmingway.

There was fine sportsmanship displayed by the participating teams, as a result the umpires were involved in only minor rhubarbs.

The success of the tournament may also be attributed to Gary and Glenda Bannard, Pat Elchuk, Pat Marfleet and family and Linda Piske for operating the concession. Also Lyle and Delores McGinn for attending the gate and giving up prime ball game time to do so. Welders Tony Mirlack of Tony's Welding and Ron Bailey from Kokas' Welding contributed welders and free labors to build backstops. Special thanks go out to Jet Steam Cleaning, J & A Trucking, Blocks Store, Kelly's Pump Service, Axelson Oil Well Supply, U.S.I., and Anchor Construction Ltd., for donating cash to help finance the tournament.

Ball players Denis Riske and Stan Elchuk put in a lot of effort to organize the tournament and with help from the other ball players, Gary Bannard, Al Hopfe, Ron Hemmingway and Lion member Neil White in repairing the Little League diamond in the West Valley Park.

The D.V. Rebel Fastball Club (who will be changing their name soon) wish to thank all the people who helped,

The Tie and Dye Kick -- Wondering what to do with the rest of the summer holidays? Join the tie and dye kick.

Do you have any dyeing to do at your house? These are things that are dying to be tie-dyed. They are right under your nose, kind of things that, with a little tie and dye face-lifting, can become totally new fashion and decorating accessories for you.

Looking for an inexpensive original to brighten up a room? Tie-dye a man's hankerchief, piece of sheet, or towel and frame it. Old Blouses never die, they just fade away. But they tie-dye beautifully to bright, multi-designed new things. Got big plans for a super dinner but zero plans for supper tablecloth? Pick up an inexpensive sheet or a used one and tie-dye the table cloth of your dreams.

Men's hankerchiefs have a way of piling up, turning yellow and getting in the way. By tie-dying them into neat little handkerchiefs you'll solve all three problems, plus adding great color accessories to your fashion wardrobe. If way-out lingerie is your bag, then tie-dye your own line. Start with a cotton bra and half slip that have gone a little gray. That floppy cotton hat you've been thinking of throwing out or using as a dust cloth -- tye - dye it for a smashing beach hat.

Now each one of you must have thought of something that would let you join the tie-dye kick. Personally, I've got my eyes on an old sheet that's going to be made into a matching bedspread and drapes for a second bedroom.

You're interested -- but what do you Need? -- article or fabric to be dyed; rubber bands or string; liquid RIT dye; color remover or chlorine bleach; rubber or plastic gloves; stove or hot plate; a large measure or creative ingenuity.

What to tie-dye? Just about all washable fabrics will take the tie-dye process. Those to beware of are glass or mineral fabrics, some polyesters and acrylics. For really striking results use satin acetates, velveteens, velvets and silks. If you find a fabric being water-resistant, add a little liquid detergent to allow proper absorption.

The basic idea of tie-dying is to tie off sections of fabric and dip the fabric in the tie - dye. The tied-off sections are prevented from absorbing dye. The form an uncolored pattern on a dyed background. If you make a mistake? In tie-dying improvise. By experimenting you arrive at the most interesting patterns.

A limited supply of tie and dye booklets are available from the South Edmonton (433-8060) or Stony Plain office (777-2231) Contact us now for your free copy or write directly to:

Buck Lake Church Setting for Ceremony

A wedding of interest to Buck Lake and district took place on Friday, July 3rd at 2 o'clock, when Ray Preston, eldest son of Mr. and Mrs. Norman Parker of Buck Creek, and Marilyn Jeanette, daughter of Mr. and Mrs. Eugene Docken, of Carnwood, Alberta, were united in marriage in the Buck Lake Baptist Church. Reverend C. Alvin Johnson performed the ceremony.

The bride was lovely in a slim, floor length gown of white satin with empire waist, and trimmed at the neckline and long sleeves with lace. The long train fell from the shoulders, and the attractive headpiece held the short veil. She carried a bouquet of deep yellow roses, with white satin streamers.

The bridesmaids were Miss Alice Parker, sister of the groom and Miss Carol Docken, sister of the bride. The little blonde flower girl was Marilyn's niece. The ring bearer was Rodney Docken. The bridesmaids and flower girl all wore short blue gowns with white accessories, and carried bouquets of pale yellow roses, with white satin ribbons.

The mother of the bride wore a pale blue fortrel dress, with white accesories, and a bright pink corsage. The mother of the groom chose a bright blue fortrel dress with white hat and accesories, and wore a pale pink corsage.

Ushers were George Foster and Brian Docken, assisted by Cliff Parker. Groomsmen were Gary Docken and Kenny Parker. The pianist was Mrs. Jean Parker. Mrs. Johnson sang a hymn during the signing of the Register.

A reception for relatives and friends was held at the Lindale Hall, and a dance followed. The bride changed to a yellow suit with white accessories and she wore a deep yellow corsage of roses. The bride and groom remained at Buck Lake for several days, and attended the Rodeo, then travelled to Throne Alberta near Coronation, where Ray is employed at the Lee Ranch. Out of town guests were from Red Deer, Edmonton, Buck Lake, Alder Flats, Breton and Calmar.

Family Gathering At Lake Isle

On Sunday, July 19th close to sixty members of the Lutz family held a family re-union. The family met at the eldest Lutz brothers cabin at Lake Isle.

The Lutz brothers and sisters are Albert Lutz, Mary MacDonald and Winnie Yager of Edmonton, Kate Zutz, Liz Crooks and Lorie Lutz of Tomahawk.

The day was spent mainly in the water as the younger ones swam, the younger adults water skied and the elder ones went boating and fishing.

Everyone brought food enough for their own family and this was all combined for a huge pot luck meal.

All reported a good time although the younger ones were weary as the day ended. We hoped to have a gathering in the next year as there are close to eighty in the family.

Hail-Free Record Falls in July

For the first time in fifteen years no hail was reported in the Alberta Hail Studies Project area on July 15th. In fact, there was only one day with hail during the middle week in July, when hail activity is normally at a peak.

On Friday, July 17th, widespread thunderstorm activity broke out in the area between Red Deer and Calgary. Several of these storms produced hail; and although none of the storms persisted for any great length of time, some did grow large enough to produce stones up to golfball or larger size.

Some of the most severe damage so far this summer occurred on July 20th and 21st as several waves of storm activity moved out from the foothills and across the farmlands. A swath of hail with stones golfball size and larger caused severe crop damage from Balzac to Irricana. This storm was tracked by radar as it continued on over Drumheller, but no reports of severe hail were received from that area.

During the evening a line of storms formed up in the Rocky Mountain House area and swept east between Red Deer and Hobbema at dusk. One cell at the southern end of this line produced grape to walnut size hail from south of Rocky Mountain House to Sylvan Lake. This storm was seeded by the Alberta Hail Studies' T-33 jet aircraft as it passed over Sylvan Lake; and although no further hail fell all indications are that it was dying out naturally.

A total of 70 farmers reported hail golfball size or larger in a line from north of Rocky Mountain House across Gull Lake and the Ponoka area to north of Bashaw. Severe damage was inflicted on the crops in an area about 60 miles long and between five and ten miles wide with the worst hit areas around Gull Lake and Ponoka.

Thunderstorm activity continued on overnight in the region between Red Deer and Calgary. A considerable amount of walnut size hail was reported to the west of Crossfield and around Three Hills in the early morning hours. Some of the hail was even as large as golfballs; and severe crop damage was reported, which is very unusual for overnight storms.

Some spotty hail activity occurred on the afternoons of July 22nd and 24th, but since then hail activity has dropped off due to the unseasonably cool weather.

Sundance Club Holds Meeting

The Sundance 4-H Garden Club held its regular monthly meeting on Monday, July 20th. Roll call was answered by "A Herb and its use".

Plans were made to attend Klondike Days on Wednesday, July 29th and the trail ride has been postponed to sometime in August.

Mrs. Charlet informed the club that the judging tour will be August 7th. Members will meet at 10 p.m. at the Post Office in Seba.

Achievement Day will be held Friday, August 28th at 3:00 p.m. in the Sundance Hall.

As the meeting was longer than usual the talks by members were tabled to the next meeting.

Following adjournment Mrs. Wiltse kindly provided a nice lunch of Kool-aid and cake.

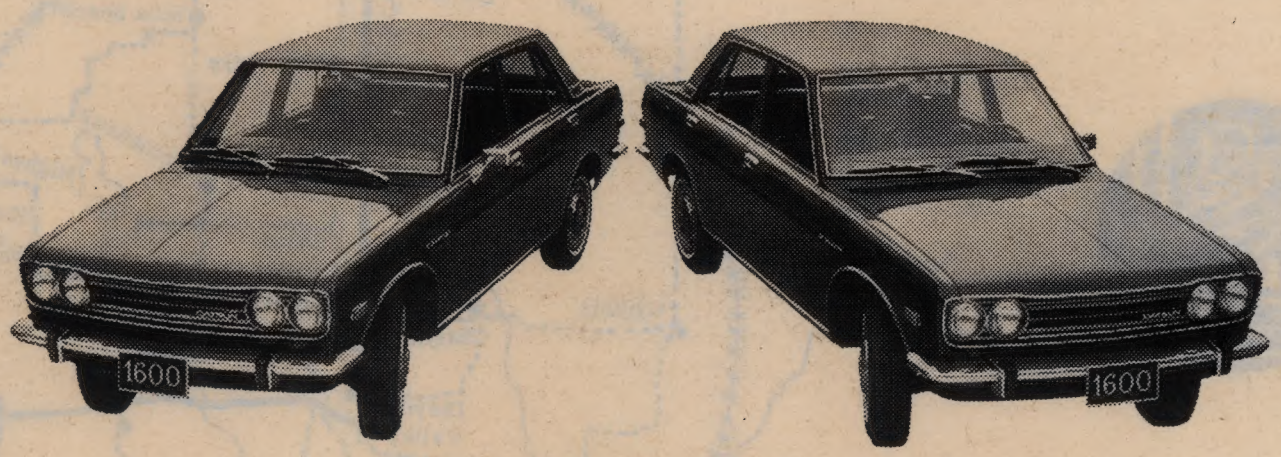
Before you spend over $4500 on a car think twice



Datsun 1600 isn't long like a big car, but it's big inside where it counts.

It doesn't have all sorts of optional extras, because everything on it but a 3-speed automatic transmission and a radio is standard equipment. Like carpet, flow-through ventilation, front disc brakes, bucket seats, whitewalls and textured vinyl upholstery.

More important, a Datsun 1600 will go anywhere a big car will go and a lot of places a big car can't. And on the way there, it will give you up to thirty-five miles for a gallon of gas and around 100,000 miles between major overhauls.

For around $4500 you get twin 2-door 1600's. Or a wagon and a 2-door. Or two 4-doors. Or just one Datsun and a bundle for your bank. No matter which way you do it you win, when you think about it.

EVANSBURG NEWS

Today, as this news report is being written, the sky seems to be clearing up. Let us hope that we get some nice warm dry weather for some time so that haying can continue.

This wet weather has not done Edmonton's Klondike Days celebration any good but it has not dampened the spirit of the members of the 4-H Clubs from around here who entered a float in the parade. The float entry from the Pembina Field Crops Club and the Lobstick Beef Club won first prize in their section of the parade. Since the theme of the float was 4-H around the World and the float was built in our yard, I think almost every member of my family had come in contact with the "World in some way or another. From the paint stains on my clothes alone, it showed I had "run" into the world and also backed into the world. However, all had a good time building and congratulations to the member s on their winning effort.

In the midsummer practical examinations of the Royal Conservatory of Music, Toronto, held at Edmonton in June, the following students of Mrs. E. Tkackyk, Grade V First Class Honors, Mary Tkachyk; Kathy Kalinowski, Grade V pass; Sandra Rimmer, Grade III pass; Ruth Tkachyk, Grade II Honors; Linda Keast, Grade I pass.

Congratulations to all these music student s on their accomplishments.

Having gone to Ross Haven Bible Camp this past week are Grant and Kelly from our family. And, also from our family, having returned from the Rural Youth Seminar, is Zane and having returned from Surprise Lake Bible Camp, is Jeff.

Members of the local 4-H Clubs leaving for an exchange visit to Wisconsin are the following: Dawn Brown, Caroline Rosadiuk, Ted Bruner, Allan Mazeppa and John Rosadiuk. The members will travel by train to Winnipeg where they will then travel by bus to Minnonomie, Wisconsin.

Does anyone still have all their summer odd jobs to do but can't find the time to do them? To solve this problem, a youth employment office has been set up in Stony Plain, Drayton Valley and other centers. These offices are set up to co-ordinate employment services for young people during the holidays.

A wide variety of expanded resources; foster homes, group homes, a range of treatment settings and other programs will be accessible to young people in trouble. All these facilities are designed to assist young people and families to best insure individual development and reintegration into society.

It is the intention of the Department of Social Development to request community support and community involvement in the prevention and treatment of juvenile delinquency. The Department believes that delinquency results from a variety of personal, social, economic and circumstantial factors, and that individual citizens and communities must be active in correcting situations which encourage delinquency. Volunteers of all kinds, from a service club working on a special project to an interested individual concerned with a specific juvenile, will be solicited and utilized.

While the Department can provide basic resources, "people development" is not a task the government can perform alone. With the help and co-operation of the people of Alberta, the churches, business and industry, voluntary and private organizations and agencies, we hope to establish a more effective route back into the mainstream of society for young people in trouble with the law.

HON. RAYMOND A. SPEAKER, Minister
ALBERTA DEPARTMENT OF SOCIAL DEVELOPMENT

Hunting Regulations Changed

A number of important changes in the 1970 hunting regulations were announced recently by Hon. Dr. J. Donovan Ross, provincial Minister of Lands and Forests.

New legislation restricting the use of snow vehicles for hunting in the alpine areas will be in foree this year. In Wildlife Management Units S400-S446 the use of snow vehicles between 12 midnight and 12 noon each day will be prohibited.

Since the introduction of the snow machines, sport hunting has changed drastically and prohibitive legislation is necessary, Dr. Ross said. The restriction will allow quality hunting during the early hours and will considerably reduce harassment of wildlife. It will also make high quality hunting opportunities possible during the early hours of the day.

The use of the vehicles after 12 noon each day will allow enough time to move game out or to change camp sites. Dr. Ross said that a similar system has been practiced in Minnesota and had proved most satisfactory.

The popular trophy mule deer area has been extended in size this year. A,1 of the area south of the Oldman and South Saskatchewan Rivers and east of the Piegan Indian Reserve will be open for male trophy mule deer. This area will comprise W.M.U. G102-108, G111-118, G124, G148.

Cougars, now defined as big game animals, may be hunted by persons holding valid elk licences. The taking of one cougar only will be permitted this year. The time for cougar hunting with dogs has been reduced this year but will be permitted between January 1st, 1971 and January 31, 1971 inclusive.
